IBKR Securities Services LLC
Notes to the Statement of Financial Condition
December 31, 2022
(Dollars in thousands, unless otherwise noted)

1. Organization and Nature of Business

IBKR Securities Services LLC (the “Company”), a Connecticut limited liability company, is a broker-dealer registered under the Securities Exchange Act of 1934 (the “Exchange Act”) with the Securities and Exchange Commission (“SEC”) and is a member of the Financial Industry Regulatory Authority (“FINRA”). The Company does not carry securities accounts for customers.

The Company acts primarily as a securities intermediary under a Securities Account Control Agreement (“SACA”) between the Company, its affiliate Interactive Brokers LLC’s (“IB LLC”) and IB LLC’s customers who are participating in IB LLC’s Fully-Paid Lending Program (“FPLP”). Pursuant to the SACA, IB LLC and its customers have engaged the Company to hold collateral on deposit for the benefit of IB LLC’s customers under the FPLP and to perform certain other functions.

The Company is 99.99% owned by IBG LLC (the “Parent”), a Connecticut limited liability company. The Company has several affiliates which are also majority owned by the Parent. The Parent and its subsidiaries, including the Company, are consolidated by Interactive Brokers Group, Inc. (“IBG, Inc.”), a publicly traded U.S. corporation.

2. Significant Accounting Policies

Basis of Presentation

This statement of financial condition is presented in U.S. dollars and have been prepared in accordance with accounting principles generally accepted in the U.S. (“U.S. GAAP”).

Use of Estimates

The preparation of statement of financial condition in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts and disclosures in this statement of financial condition and accompanying notes. These estimates and assumptions are based on judgment and the best available information at the time. Therefore, actual results could differ materially from those estimates. Such estimates include valuation of certain investments, useful lives of property and equipment, accruals, and contingency reserves.

Fair Value

The Company applies the fair value hierarchy in accordance with FASB ASC Topic 820, “Fair Value Measurement” (“ASC Topic 820”), to prioritize the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities and the lowest priority to unobservable inputs. The three levels of the fair value hierarchy are:

- Level 1 Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.
- Level 2 Quoted prices for similar assets in an active market, quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly.
- Level 3 Prices or valuations that require inputs that are both significant to fair value measurement and unobservable.

Cash and Cash Equivalents

Cash and cash equivalents consist of deposits with banks and all highly liquid investments, with maturities of three months or less, that are not segregated and deposited for regulatory purposes or to meet margin requirements at clearing houses and clearing banks.

IBKR Securities Services LLC
Notes to the Statement of Financial Condition
December 31, 2022
(Dollars in thousands, unless otherwise noted)

Cash Segregated for Regulatory Purposes

The Company carries a Proprietary Account of Brokers (“PAB”) account for IB LLC. As a result, the Company is required to perform the computations for the assets in PAB accounts in accordance with the PAB reserve computation set forth under Exchange Act Rule 15c3-3 and segregate or set aside cash or qualified securities to satisfy such regulation. At December 31, 2022, the Company held \$1,003 in a segregated bank account, which was \$1,003 in excess of its requirement of \$0.

Restricted cash represents cash and cash equivalents that are subject to withdrawal or usage restrictions. Cash segregated for regulatory purposes meets the definition of restricted cash.

Receivables from Brokers, Dealers and Clearing Organizations

Receivables from brokers, dealers and clearing organizations include cash deposits for margin and clearing funds with clearing organizations and cash held at affiliated brokers.

Dividends and Interest

Interest is accrued on bank and broker balances. Dividends are accrued on equity securities owned and sold, but not yet purchased on ex-dividend date. Interest and dividends are included in dividends and interest receivable, and dividends and interest payable, respectively, in the statement of financial condition.

Income Taxes

The Company accounts for income taxes in accordance with FASB ASC Topic 740, “Income Taxes” (“ASC Topic 740”). The Company’s deferred tax assets and liabilities, and reserves for unrecognized tax benefits are based on enacted tax laws and reflect management’s best assessment of estimated future taxes to be paid. Determining income tax requires significant judgment and estimates.

The Company records tax liabilities in accordance with ASC Topic 740 and adjusts these liabilities when management’s judgment changes as a result of the evaluation of new information not previously available. Because of the complexity of some of these uncertainties, the ultimate resolution may result in payments that are different from the current estimates of these tax liabilities. The Company operates in the U.S. as a limited liability company that is treated as a partnership for U.S. federal income tax purposes. Accordingly, the Company’s income is not subject to U.S. federal income taxes. Taxes related to income earned by partnerships represent obligations of the individual partners.

FASB Standards issued but not adopted as of December 31, 2022

3. Trading Activities and Related Risks

The Company manages its risks in accordance with established risk management policies and procedures. To accomplish this, management has established a risk management process that includes:

- a regular review of the risk management process by executive management as part of its oversight role;
- defined risk management policies and procedures supported by a rigorous analytic framework; and
- articulated risk tolerance levels as defined by executive management that are regularly reviewed to ensure that the Company's risk-taking is consistent with its business strategy, its capital structure, and current and anticipated market conditions.

Credit Risk

The Company is exposed to the risk of loss if a customer, counterparty or issuer fails to perform its obligations under contractual terms (“default risk”). The Company has established policies and procedures for mitigating credit risk, including reviewing and establishing limits for credit exposure, maintaining collateral, and continually assessing the creditworthiness of counterparties.

Concentrations of Credit Risk

The Company's exposure to credit risk associated with its brokerage and other activities is measured on an individual counterparty basis, as well as by groups of counterparties that share similar attributes. Concentrations of credit risk can be affected by changes in political, industry or economic factors. To reduce the potential for risk concentration, credit limits are established and exposure is monitored in light of changing counterparty and market conditions. As of December 31, 2022, except for cash of \$51,114 held at one major financial institution, the Company did not have any material concentrations of credit risk outside the ordinary course of business.
